606 Liberty Avenue, 3rd Floor,
Pittsburgh, PA 15222-2722
info@GDMSCO.com

Company Capability Statement

GDMS is your Geographical Information Systems, Data Management, and Web Development experts. We work with clients in diverse industries to evaluate their business needs and create informational platforms that are customized to meet an organization's goals. We deliver exceptional products every time.

Core Competencies

Data Management, Geographical Information Systems, and Web Development

The Data is a key component for every project. We take raw data and convert it into valuable information which allows you to make effective decisions.

The Design

We use the latest technology available to display the information you want relayed. All of the designs created by GDMS are tailored to your brand's unique identity.

The Development (Web, Database Application)

As a multi-disciplinary company, GDMS delivers interactive maps, databases, and custom websites that are compatible on various digital platforms.

Additional Services

Data Related: Analysis, Conversion, Creation, Dictionary Creation, Migration

GIS Related: Database Analysis, Geocoding, Geospatial Analysis, GPS Data Collection, Mapping

Web Related: Application Development, Backend Framework Development, Custom Creations, Frontend Design, Multi-Platform Integration, System Analysis
